

Barefoot Blue Jean Night

Jake Owen

Full moon shinin' bright
Edge of the water we were feelin' alright
Back down a country road
The girls are always hot & the beer is ice cold
Cadillac horns on the hood
My brother Jarrod had his dad hook us up good
Girls smiled when we rode by
They'd hop in the back & we'd cruise to the riverside

Chorus:

Wohh never gonna grow up
Wohh never gonna slow down
Wohh we were shinin' like lighters in the dark
In the middle of a rock show
Wohh we were doin' it right
Wohh we were comin' alive
Wohh We were caught up in a southern summer
Barefoot bluejean night

Blue eyes & auburn hair
Sittin' lookin' pretty by the fire in a lawn chair
New to town, new to me
Her ruby red lips were sippin' on sweet tea
Shot me a look like a shootin' star
So I grabbed a beer & my ole guitar
Sat around til the break of dawn
Howlin' & singin' to our favorite songs

Repeat Chorus x2
